

Instructions on how to use the Student Grading System

<https://slgcs.crportals.studentinformation.systems/>

Student Grading System login is for parents and students in grades K – 8 and registration is required to use this system. It allows access to your student's official school grades, attendance record, and cafeteria transactions. It is the same grading system we used last year but has been rebranded. It is now called Vision SIS (formerly MMS).

Most screen navigation is self-explanatory except for cafeteria information, which can be found by clicking MORE, then click on FEES.

Parents and students who already have a Student Grading System account from last year will use your same username and password as before. You do not re-register. To connect your other child(ren) to your account, click on My Account and then click on Add Student. Follow the on-screen instructions.

To view a Report Card, click on Reports, then click on Skills Report Card

REGISTRATION

Please read all instructions before proceeding because the process is different for parents than it is for students.

PARENT REGISTRATION

If you already have an account at another school, you do not have to create a new account. Simply connect your St. Leo student to your existing account by clicking the My Accounts link and follow the instructions to add student.

If you do not have an account, click Create Parent Account link on the grading system home page. You will need to obtain your student's student ID number to complete this process. You may use any User Name you like, but the email address must match the email address we have on file in the school office.

Upon completion of the registration process, a temporary password will be sent to the email address we have on file for you. Once you receive the temporary password, log into the Student Grading System again and you will be prompted to change your password to one of your own choice. Once logged in, you will see the name of your child whose ID number you entered when you created the account. To add your other children to your account, go to My Account link and follow the instructions.

STUDENT REGISTRATION

Each student in grades 4 – 8 may access his/her grades without gaining privileges to a sibling's academic progress by following these instructions:

Log into your parent account.

Click My Account link.

Click Create Student Login link and follow the instructions.
